EXPERIENCE

Full Stack Developer

Omr IndiaOutsource

📅 09/2018 - Present   📍 Agra

<u>Role and Responsibilities:</u>

- Backend Development Leadership:
  Orchestrated the development of scalable and high-performing backend services using the Spring Boot framework, driving the success of our flagship products.
- Frontend Development Excellence:
  Crafted intuitive and responsive frontend components utilizing React, elevating the user experience and engagement across diverse platforms.
- Cross-functional Collaboration:
  Collaborated seamlessly with interdisciplinary teams to meticulously translate intricate business requirements into robust technical solutions, surpassing client expectations consistently.
- Software Integrity Assurance:
  Ensured the integrity and resilience of our software ecosystem through meticulous testing protocols and strategic debugging practices, fortifying our products against vulnerabilities.
- Technological Evolution Advocacy:
  Maintained a proactive stance towards technological evolution, staying at the forefront of emerging trends and methodologies to optimize team performance and project outcomes.
- Problem-solving and Delivery Excellence:
  Exhibited a relentless commitment to problem-solving, navigating complexities with agility and precision to deliver timely and exemplary solutions.

EDUCATION

Masters of Computer Application

GLA University

📅 2018 - 2020
